## Top Skills

Multithreaded Development  
MongoDB  
Amazon Web Services (AWS)

## Certifications

Linux Certificate  
Friction Dampers and Seismic  
Energy Dissipation

# Akshya Pandey

Senior Software Developer |  
Java, SpringBoot, MySQL, Mongo, InfluxDB  
Hoshiarpur, Punjab, India

## Summary

Having excellent communication and negotiating skills with excellent social compatibility, quick to grasp new ideas, and easily adaptable to the new environment. Possess abilities to drive, support & sustain a positive work environment. driven towards growth. Looking for Transition into IT industry. Positive attitude is all I am build upon. hardworking and willing to give my 100%. Technical proficiencies include:

- Programing Language - Java, Python
- Framework- Spring Boot
- Methodology - Object Oriented Programming System (OOPs)
- Database - MySQL, MongoDB, InfluxDB
- Version Control - Git
- Tools and Software - Pycharm, IntelliJ, GitHub, Jupyter Notebook, Sublime, VS code
- Operating System - Linux, Windows

---

## Experience

### IoT83

1 year 9 months

Senior Software Engineer  
October 2022 - Present (4 months)  
Gurugram, Haryana, India

- Worked with client to provide robust solutions for application implementations.
- Also working closely with clients with their product needs.
- Designed Secured (Spring Security) RESTful APIs specifically for web applications.
- Implemented Multi Threaded Custom Simulation using J2EE and Spring Boot.
- Implemented AWS S3.

Software Engineer

August 2021 - September 2022 (1 year 2 months)

Gurugram, Haryana, India

- Working as JAVA developer and strong-holding my J2EE skills.
- Also working closely with clients with their product needs.
- Designed Secured (Spring Security) RESTful APIs specifically for web applications.
- Implemented Mysql, MongoDB, InfluxDB.
- Implemented minIO for Uploading data.

Software Engineer Intern

May 2021 - July 2021 (3 months)

Gurugram, Haryana, India

- Build the understanding about Spring Boot framework, that how does bean management takes place inside bean i.e. IoC container management, Bean lifecycle etc.
- Nurtured the SOLID principles for better code collaboration with team mates.
- Improved my DSA understanding.

DDF Consultants Private Limited

1 year 5 months

Assistant Design Engineer

July 2020 - April 2021 (10 months)

New Delhi, Delhi, India

Design structures that must endure stresses and pressures inflicted through human use and environmental conditions(Earthquakes etc.). Configures structures, choose appropriate building material, inspect the construction work and ensure the structural soundness of buildings and structures. Also working on Linear and Non-linear Time history analysis, using different retrofitting measures like Friction dampers, CFRP, Jacketing, Confined masonry structures etc.

Graduate Trainee

December 2019 - June 2020 (7 months)

New Delhi, Delhi, India

Modelling of structure for the analysis and design on ETABS and SAFE. Meeting all the basic requirement for structure to behave accordingly. Engagement with RVS( Rapid visual survey ). Responsible for the QA/QC of RVS outcomes.
